

SUBJECT:	Personnel		
POLICY:	405.4 Campus Security & Safety		
PROCEDURE:			
EFFECTIVE:	March 2011	REVISED:	February 2022
		REVIEWED:	January 2026

Introduction and Purpose

It is the policy and commitment of the Great Falls College to provide its employees, students, and visitors with a campus environment that is as safe and free of crime as possible.

Employees, students, and visitors contribute to overall campus security and safety by reporting criminal activity, securing personal possessions, and being aware of personal safety at all times including entering and exiting campus buildings.

Policy

Great Falls College provides to the public campus crime prevention information as well as statistics on the incidence of campus crime. Information is available from student central.

The Great Falls Police Department is the primary law enforcement agency for the City of Great Falls. They have jurisdiction over the college and will respond upon request to all crimes committed on campus that violate city ordinances and State of Montana statutes, and they will conduct all investigations or arrests.

Employees, students, and visitors who are victims of criminal activity or who observe any criminal and/or suspicious activity in the college's building or on campus property are urged to immediately call 911. If calling from a campus phone, dial only 911 (no extra 8 is needed to get an outside line).

In the case of personal injury/violation requiring medical attention, emergency medical services (911) should be called for assistance and instructions.

In addition, an incident report must be completed. It is advised that the report be completed within 24 hours of the incident and returned to the Executive Director of Technology & Operations in the administration suite.
