FYI for Program directors, department chairs and division directors. Please review the memo on the 5 College Learning Outcomes.

Thanks,
Teri
Memo

To: All program and division directors:

From: Cloat Committee:

Subject: Senate approved the 5 College Learning Outcomes last spring. These outcomes will replace the 8 abilities beginning in Fall 2016. The syllabi template will be changed this spring to reflect those new outcomes. It is imperative that all program directors review their program objectives to assure that the program objectives align with the new college learning outcomes. Changes to the objectives must be approved by curriculum committee by March 1, 2016, to be presented in the new catalog. A template will be provided in January for those programs requiring a change of objectives.

The committee will be hosting a communication meeting in early January to discuss the new College Learning Outcomes and possible measurements of those outcomes.

I have attached the college learning outcomes in a separate document.

Thanks,

Teri
COLLEGE LEARNING OUTCOMES

All graduates will engage in learning activities that enhance their professional and personal lives as well as their professional and personal lives as well as their communities. During their academic careers at Great Falls College Montana State University students will engage in learning activities that demonstrate:

- Effective Communication
