Minutes		
Topic	Discussion	Action
MT's Future at Work Summit	Stacy forgot to submit her request.	Stacy will complete the request and plan on attending this event.
Review Scores	<p>Discussed what projects will go to OCHE. Discussed funding current positions versus new positions. Committee agreed to move forward with the 12 projects that scored in the top 3 in any of the rubric categories. Other projects will be included, but adjusted as needed to match allocation. EDEC course design will be included at the full amount; adjunct instruction will not be included (at this time). CAS Faculty will be reduced to a smaller percentage.</p> <p>Discussed the rubric and revising it for next year as emerging tech doesn't apply. Consider giving more weight to projects that reduce student barriers. Max points were not given if a request form wasn't thorough. For example, we may know that a project will reduce student barriers, but request forms did not provide details as to how. May need to revise request form for next year as well.</p>	Stacy will complete and submit the Perkins Local application.
Backup Requests	<p>Discussed what other projects will go to OCHE if any original requests are denied. Do we have any other projects to consider? How do we want to handle this?</p> <p>Do another call out for requests if time allows.</p>	Stacy will update committee as needed regarding additional requests, funding changes, etc.
