Narrated Video Tour of Veterinary Partner Facility

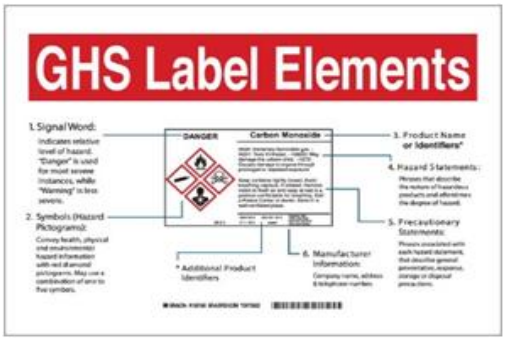

Veterinary Partner applicants of the Great Falls College - MSU Veterinary Technician program are required to submit a narrated video tour of the proposed primary learning facility. This video will allow the program and the accrediting body to determine that the facility is a safe and productive learning environment for the Veterinary Technician students. If you have any questions concerning the information required within the narrated video tour, please contact the Program Director at jamie.dennis@gfcmsu.edu (Jamie Dennis, LVT).

The narrated tour of the Veterinary Partner (primary learning) facility must include the following:

- Outside of the facility, including sign on the building and entering the client waiting area
- Exam room
- Treatment area, including sharps containers and examples of several secondary containers properly labeled*
    - Sharps containers
    - Secondary containers labeled
    - SDS Binders
- Pharmacy area
- Vaccine fridge with thermometer
    - thermometer
- Lab area including diagnostic equipment
- Instrument sterilization equipment
- Radiology area, including safety equipment (lead aprons, gloves, thyroid shield, and rack for storage)
    - Dosimeter badges
- Surgical suite, including anesthesia machines and monitoring equipment
- Dentistry area and equipment
- Controlled drug box
- Kennel area(s)

- Safety signage
- Large animal facilities and equipment including cattle chute (all four sides)
- Area where OSHA posters are displayed for employees**
- Include all equipment indicated on your Veterinary Partner application

*secondary containers are required to be properly labeled. This will include any material that is placed in a different container (spray bottle, squeeze bottle, etc.) from a large container such as a gallon jug. OSHA requires these labels to have either the full Globally Harmonized System (GHS) label or a rating system such as the National Fire Protection Associate (NFPA) diamond.

**The video tour must show the "OSHA Job Safety and Health: It's the Law" poster. It is required to be displayed in a conspicuous place where employees can easily view it. If the facility does not have this, it may be downloaded and printed.
